

Pickens County Remote Support Contact List

To limit the spread of COVID-19, Pickens County has amended its operations to include limited contact with the public whenever possible through March 31, 2020. Please consider calling or emailing our offices for remote assistance rather than visiting one of our offices in person. A complete County directory can be found on our website at co.pickens.sc.us. If you're having trouble getting through to someone, the following information may be useful to quickly reach the appropriate person or department.
